

Series ASPF

3.0 Amp • 240 Vac • AC MINI-SIP

- **Integral Heat Sink Design For High Ratings**
- **DC Control, AC Output**
- **SCR Output**
- **Crydom's Patented Design**

Rated at 3.0 Amps up to 45°C, this SPST-NO AC output SSR is the preferred choice for applications where precise electrical power control is essential. With no mechanical or moving parts the ASPF is perfect for repetitive switching where reliability and durability are required. Zero voltage or random switching (R suffix) versions are offered.

The Series ASPF Solid State Relay incorporates Crydom's patented PowerFin™ design technology with an integral heat sink on the compact Mini-SIP package.

Manufactured in Crydom's ISO 9001 Certified facility for optimum product performance and reliability.
